Ovrebø & Juan Luis Mata, Co-Scientific Advisors

2010 MEMBERSHIP DUES

IF THE YEAR AT THE END OF YOUR NAME IS EARLIER THAN '10, YOUR DUES ARE DUE. A MEMBERSHIP APPLICATION IS ATTACHED, PLEASE COMPLETE IT AND MAIL WITH YOUR CHECK. WE ARE REQUIRED TO PURGE MEMBERS WHO HAVE NOT PAID DUES BY JUNE OF EACH YEAR. PLEASE MAIL NOW. THANKS.

TUNICA HILLS MOREL WALK

MARCH 20, 2010

The Morel Walk in the Tunica Hills Wildlife Mgmt Area will be held Saturday, March 20th, 2010. Vice-president David Fuller will lead the Walk.

The Tunica WMA is a beautiful and rugged area of loessal bluffs with an Upland Hardwood habitat located about 20 miles by road NW of St. Francisville, LA. Those attending will have to possess either a valid LA hunting or fishing license or a WMA use permit. These must be carried on your person, and because there is a lot of poaching in this area, we will almost certainly be asked to show our permits. The permit may be purchased online from Louisiana Wildlife & Fisheries, or any place selling Hunting/Fishing licenses. Each vehicle will also have to be registered at the self-check station at the WMA entrance. There is a five (5) gallon limit per person per day for mushrooms.

David will request non-GSMS member guests to sign a waiver of liability against GSMS members, because of the many dangers in this area. These dangers include very steep, slick, and unstable slopes, timber and pygmy rattlesnakes, copperheads, water moccasins, Lyme's disease and West Nile Virus. Bears, a rare panther, and feral hogs occasionally visit the area. It is suggested that appropriate footwear, with good ankle support and traction, be worn. People with bee or other allergies should bring appropriate medication. A walking/snake stick is suggested.

St. Francisville is located on Hwy 61, about 60 miles south of Natchez, MS and about 40 miles north of Baton Rouge. St. Francisville can be approached from the south or north by Hwy 61, from the east by LA Hwy 10 or from west by means of the LA Hwy 10 ferry. Those crossing the ferry should allow an extra 30 minutes because the ferry crosses at 30 minute intervals. Those needing better travel directions should call or email the Fullers or go to www.MapQuest.com and search. There are nice motels and Bed & Breakfast's in the area for those wishing to spend the night. Go to www.stfrancisville.com/hotels/index.htm.

We will meet at M&J Grocery on LA Hwy 66, locally known as the "Angola Road". LA Hwy 66 originates at Hwy 61, about three miles north of St. Francisville, and ends at the Angola Prison Farm. LA Hwy 66 is very well marked. M&J's Grocery is located 6.2 miles from the turn onto LA Hwy 66 and is on the left side of the road. David will be there beginning at 8:30 AM and we will all leave for the site at 10:00 AM. M&J's Grocery prepares snacks and sandwiches, and may sell permits and licenses. David's cell phone number is 225-721-0409 for those lost or in trouble. We will end the walk at 4:00 PM. Lunch will be "on the hoof" so that more time can be spent hunting. See you there! David Fuller

BIG THICKET MUSHROOM WALK

SATURDAY, JUNE 12, 2010

We will meet at 10 AM at the Big Thicket National Preserve (BTNP) Field Research Station (FRS), located in Saratoga TX, on the west side of the highway. Saratoga is approx. 35 miles NW of Beaumont. The FRS is on FM 770, north off TX Hwy 105 between Beaumont and Cleveland. We will foray into the Lance Rosier Unit of the BTNP, collect and record species, and thereby assist with the All Taxa Biodiversity Inventory (ATBI) species list for the BTNP. This project has yielded a number of new records for the Preserve and for the State of Texas, including a species new to science, *Megacollybia texensis*. This will be a part of the learning activities for students of Eastfield College, from Mesquite, Texas, who spend a week in the Big Thicket each summer. Our President, David Lewis, mentors two students each year to educate them in mycology.

After collecting, we will return to the FRS, have lunch, and discuss the morning's finds. Bring collecting gear, rainwear, water, bug spray, and a sack lunch. Please call or email with any questions: David & Pat Lewis 409-423-3776 or email: plewis@jas.dot.net

GULF STATES SUMMER FORAY **JULY 9 – 11, 2010 HILLSDALE MS**

Our Gulf States Mycological Society Summer Foray will be held July 9-11 at King's Arrow Ranch Inn at Hillsdale, Mississippi. Our guest speaker will be Dr. Ron Petersen, with the University of Tennessee at Knoxville, a specialist on the genera *Megacollybia*, *Strobilomyces*, *Pluerotus*, *Xerula*, and others. Some of you may have met him at the NAMA/GSMS 2009 foray in Lafayette, LA.

We do not presently have a graduate student to host this year, but are searching for one. Registration forms should be ready by the last week in April. So mark your calendars and save the dates.

NAMA/GSMS 2009 **LAFAYETTE, LA NOV 26-29 2009**

Mycology in the Heart of Cajun Country

Gulf States Mycological Society hosted the North American Mycological Association annual foray in Lafayette, LA, Thursday - Sunday, November 26 - 29. The event was held at the Holiday Inn – Lafayette, where the food, lodging, and facilities were excellent.

A microscopy workshop was held from Nov. 22 - 26. Drs. Andy Methven and Walter Sundberg were the instructors. Participants were shown the special features of fungi that can only be seen with magnification. It is the only easy way to separate some families from one another and can settle many otherwise puzzling dilemmas. In addition, it's fun. GSMS members attending the workshop were David Fuller, Therese Martin, Hanna Tschekunow, and 7 NAMA members.

Co-Chief Mycologists were Clark Ovrebo and Juan Luis Mata, GSMS Scientific Advisors. Presenters included M. Catherine Aime (LSU- Baton Rouge), Charles Allen (CO State), Meredith Blackwell (LSU- Baton Rouge), Bart Buyck (National Museum of Natural History, Paris, France), Jay Justice, Matthew Keirle (State College of FL), Harold Keller (Botanical Research Institute of TX), Patrick Leacock (Field Museum), D. Jean Lodge (USDA Forest Service Puerto Rico), Juan Luis Mata (U South AL), Andrew Methven (Eastern Illinois U), Clark Ovrebo (U of Central OK), John Plischke III, NAMA Photography Chair; Samir A. Ross (U of MS), David Rust, NAMA Webmaster; Ron Spinosa, NAMA Cultivation Chair; Walt Sturgeon, Walter Sundberg (Southern IL U, Emeritus), Rodham Tulloss, and Tom Volk (U of WI-LaCrosse). Patrick

Leacock, of the Field Museum of Natural History and the NAMA Voucher Committee, kept us updated on the species found. From "Evaluation of Fossil Myxomycetes in Amber" (H. Keller) to "AOK ID W/DNA PCR ASAP, LOL: Modern Methods in Mushroom Systematics" (T. Volk), participants were treated to a wide spectrum of informative and entertaining presentations. The Mycophagy committee, led by Ursula Pohl, prepared an excellent feast featuring pickled, fried, sauted, and baked mushrooms.

Field trips were made to nearby Longfellow-Evangeline State Historic Site in St. Martinville; Chicot State Park and the Louisiana State Arboretum, both north of Ville Platt, Nature Conservancy property at Lake Martin, "Heartwood" owned by Antoinette DeBosier near Catahoula; also the Acadiana Park and Nature Center, the Vermillion River Nature Trail, and Lafayette Soccer Fields, all in the City of Lafayette. Field trip leaders were GSMS members David Fuller, Heinz and Julie Gaylord, Jay Justice, David Lewis, Juan Luis Mata, Julia O'Neal, and Brooks and Bernadine Young.

We were treated to many beautiful mushroom photos as part of the NAMA Mushroom Photo Contest. Thanks to John Plischke III for providing this activity.

Evening entertainment was provided in music and song about mushrooms and mushroom names, written by lead player Peyton Wilson, who played the harmonica and guitar. Peyton was assisted by Mitch Fournet on the tambourine, Julie Gaylord as singer, Ben Rauch on the flute, and Phillip Tussing on the Irish drum. This excellent performance was perfect for the event. All but Mitch are GSMS members.

Our President, David P. Lewis, received the 2009 NAMA "Award for Contributions to Amateur Mycology". This is a prestigious award as candidates must be supported by local club members and approved by a majority of the living past recipients. David Rust, NAMA Webmaster, received the "Presidents' Award" for his work on the NAMA Website. Both expressed their appreciation for the honor.

Total attendance was 110 persons from 28 states, Canada, France, and Puerto Rico. Of these, GSMS members were: Cathy Aime, Meredith Blackwell, Toby Feibelman & Rob Stuart-Vail, David Fuller, Heinz & Julie Gaylord, Sergio & Wanda Henao, Mona Hollier, Jay Justice, Joe & Carol Knapka, Matthew Keirle, David & Patricia Lewis, Therese Martin, Juan Luis Mata & Ingrid Arce, Brian McNett, Dennis & Angie Miller, Julia O'Neal, Clark Ovrebo, Ben Rauch, Chris Riggio & Jean Bodeau, Paul Scott, Jerry & Sandy Sheine, Hanna Tschekunow, Phillip & Alexandra

Tussing, Allison Walker, Charles Walter, Robert & Rosemary Williams, Peyton Wilson, Don Yeltman, and Brooks & Bernadine Young.

Graduate students hosted by the NAMA Voucher Committee were Paul Scott and Allison Walker, sponsored by GSMS, and Matt Foltz, sponsored by Tom Volk. Our thanks to them for their hard work.

Although the species count was not high, we found over 170 fungi species + 9 lichens. However, many seldom seen (by Northern members) tropical fungi were encountered, and include species such as *Auricularia polytricha*, *Cymatoderma caperatum*, *Fomes fasciatus*, *Hexagonia hydnoidea*, *Microporellus dealbatus*, *Nigroporus vinosus*, *Polyporus tenuiculus*, *Pseudofavolus cucullatus*, *Trametes nivosa*, *Trametes menziesii*, and several others. Patrick Leacock, of the NAMA Voucher Committee, stated that we added at least 40 new records to the NAMA master species list. Rod Tulloss reports that an *Amanita*, #T43, is new to science.

Our appreciation goes out to everyone who worked to make this a successful foray, who are too numerous to mention. Many thanks to organizers David and Patricia Lewis for showing us a wonderful time "In the heart of Cajun country."

By David Lewis, Patricia Lewis, and Allison Walker

NAMA 50th ANNIVERSARY FORAY **AUGUST 12 - 15, 2010**

This year's NAMA Foray will be hosted by the Colorado Mycological Society and held at Snow Mountain Ranch. Go to the NAMA website, www.namyco.org for details.

Incomplete NAMA/GSMS 2009 species list:

Abortiporus biennis (Bull.) Singer
Agrocybe cylindracea (DC) Maire
Aleurodiscus oakesii (Berk. & Curtis) Pat.
Amanita citrina var. *lavendula* Coker
Amanita muscaria var. *persicina* Jenkins
Amanita cf. *mutabilis* Beardsley
Amanita polypyramis (Berk. & Curt.) Sacc.
Amanita species T10
Amanita species T43 new taxa
Amanita *vaginata* complex
Annulohyphoxylon nitens (Ces.) Y.M. Ju, J.D. Rogers & H.M. Hsich
Annulohyphoxylon cf. *thouarsianum* (Lev.) Y.M. Ju, J.D. Rogers & H.M. Hsich
Antrodia anserina ?
Armillariella tabescens (Scop.: Fr.) Singer
Armillariella tabescens ssp. "yellow-cap"
Auricularia polytricha (Mont.) Sacc.
Biscogniauxia atropunctata (Schwein.) Pouzar

Bjerkandera adusta (Fr.) Karst.
Bolbitius reticulatus (Pers.) Ricken
Boletus innixus Frost
Byssocorticium atrovirens (Fr.) Bandartsev & Singer
Calvatia craniformis (Schw.) Fr.
Calvatia cyathiformis (Bosc) Morgan
Cantharellus cinnabarinus Schw.
Capnodium sp.
Cerebella andropogonis Ces. (Epicoccum)
Cerrena unicolor (Bull.) Murr.
Chroogomphus rutilus (Schaeff. ex Fr.) O.K.M.
Clathrus columnatus Bosc
Clavaria vermicularis Fr.
Claudopus cf. *vinaceocontusus* T.J. Baroni
Clitocybe nuda (Bull.: Fr.) Bigelow & Smith
Coleosporium asterum (dietel) Syd. & P. Syd.
Conocybe cf. *antipus* var. *humicola* Thiers
Cryptothecia rubrocincta (Ehrenb.) G. Thor
Cymatoderma caperatum (Mont. & Berk.) Reid
Daedaleopsis confragosa (Bolt.: Fr.) Schroet.
Daedaleopsis septentrionalis (P. Karst.) Niemela
Daldinia concentrica (Bolt: Fr.) Ces. & de Not.
Entoloma rhodopolium (Fr.) Kumm.
Entoloma cf. *rhodopolium* (Fr.) Kumm.
Entoloma species
Erysiphe calocladophora (G.F. Atkinson) U. Braun & S. Takam
Exidia glandulosa Bull.: Fr.
Fomes fasciatus (Swartz:Fries)M.C. Cooke
Ganoderma applanatum (S. F. Gray) Pat.
Ganoderma lucidum Leysser: Fr.
Gastrum morgani Lloyd
Gastrum triplex Jungh.
Gloeophyllum sepiarium (Wulfen: Fr.) Karst.
Gloeoporus dichrous (Fr.) Bres.
Grifola frondosa (Dickson: Fr.) S.F. Gray
Gymnopilus liquiritiae (Pers: Fr.) Karst.
Gymnopilus penetrans (Fr. ex Fr.) Murr.
Gymnopus spongiosus (B&C) Halling
Gymnosporangium trachysorum
Hemitrichia serpula (Scop.) Rostof.
Hericium americanum Ginns
Hericium erinaceus (Bull.)Pers.
Hexagonia hydnoidea (Swartz: Fr.) Fidalgo
Hohenbuehelia mastrucata (Fr.) Singer
Hohenbuehelia petaloides (Bull.: Fr.) Schulz.
Hydnochaete olivacea (Schwein.) Banker
Hydnum repandum L.: Fr.
Hygrocybe cf. *atrosquamosa* Pegler
Hygrocybe cf. *chlorophana* (Fr.) Wunsche
Hygrocybe cf. *flavescens* (Kauffman) Singer
Hygrocybe aff. *marchii*, *minutulus*
Hygrocybe pratensis var. *pallida* (Cooke) Arnolds
Hygrocybe psittacina (Schaeff.) P. Kumm.
Hygrocybe virginea (Wulfen) P.D. Orton & Watling
Hygrophorus eburneus (Bull) Fr.
Hygrophorus laurae Morgan
Hygrophorus occidentalis A.H. Smith & Hesler
Hygrophorus aff. *pustulatus* (Pers.) Fr.
Hygrophorus roseibrunneus Murrill
Hymenochaete rubiginosa (Dicks.) Lev.

Hymenochaete species
 Hymenochaete tabacina Lev.
 Hypoholoma fasciculare (Fr.) P. Kumm.
 Hypocrea peltata (Jungh.) Sacc.
 Hypomyces luteovirens (Fr.) Tul.
 Hypoxylon fragiforme (Pers.) J. Kickxf.
 Inocybe maculata Boud.
 Inocybe rimosa Britzelm.
 Inonotus dryadeus (Pers.) Murrill
 Inonotus glomeratus (Pk.) Murr.
 Kuehneola uredinis (Link) Arthur
 Laccaria ochropurpurea (Berk.) Pk.
 Laccaria trichodermophora Mueller
 Laccaria vinaceobrunnea Mueller
 Laccaria species
 Lactarius chrysotheus Fr.
 Lactarius paradoxus Beardslee and Burlingham
 Lactarius pseudodeliciosus Beardslee and Burlingham
 Lactarius quietus var. incanus Hesler & A.H. Smith
 Laetiporus gilbertsonii var. pallidus Burds.
 Lentinus trigrinus (Bull.) Fr.
 Lepiota acutesquamosa (Weinmann) Kummer
 Leucogloea compressa (Ellis & Everh.) R. Kirshner
 Lycoperdon molle Pers.
 Lycoperdon perlatum Pers.
 Lycoperdon pyriforme Schaeff.: Pers.
 Marasmius felix Morgan
 Metatrachia vesparium (Batsch) Nann.-Bremek
 Microporellus dealbatus (B.& C.) Murr.
 Mycena galericulata (Scop.) Gray
 Mycena inclinata (Fr.) Quel
 Mycena luteopallens (Pk.) Sacc.
 Mycoacia uda (Fr.) Bonk
 Nigroporus vinosus (Berk.) Murrill
 Panellus stipticus (Bull.: Fr.) Karst.
 Phaeomarasmius erinaceellus (Pk.) Singer
 Phanerochaete chrysorhiza (Torr.) Budington & Gilb.
 Phellinus gilvus (Schw.) Pat.
 Phellinus wahlbergii (Fr.) D.A. Reid
 Phellinus species
 Phlebia incarnata (Schweinitz) Nakasone
 Phlebia tremellosa (Schrader:Fr.) Nakasone & Burdsall
 Pisolithus tinctorius (Pers.) Coker and Couch
 Pleurotus ostreatus (Jacq.: Fr.) Kummer
 Pluteus cervinus (Schaeff.: Fr.) Kummer
 Pluteus cf. jamaicensis Murr.
 Pluteus petasatus (Fr.) Gillet
 Polyporus tenuiculus (P. Beauv.) Fr.
 Pseudofavolus cucullatus (Mont.) Pat.
 Puccinia lygodii (Har.) Arthur
 Puccinia smilacis Schwein.
 Russula balloui Pk.
 Russula silvicola Schaffer
 Schizophyllum commune Fr.
 Scleroderma cepa Persoon
 Scleroderma polyrhizon Persoon
 Scleroderma texense Berk.
 Scortechinia acanthostroma (Nitschkia)
 Skeletocutis nivea (Jungh.) Jean Keller
 Spongipellis pachydon (Pers.) Kotl. & Pouz.
 Spongipellis unicolor (Schwein.) Murr.

Stereum complicatum (Fr.) Fr.]
 Stereum ostrea (Blume & Nees.) Fr.
 Stereum rameale (Schwein.) Burt
 Strobilurus conigenoides (Ellis.) Singer
 Trametes ectypa (Berk. & Curtis) Gilb. & Ryvarden
 Trametes conchifer (Schw.: Fr.) Pilat
 Trametes elegans (Spreng.: Fr.) Fr.
 Trametes menziesii (Berk.) Ryvarden
 Trametes nivosa (Fomitopsis nivosa)
 Trametes pubescens (Schum.:Fr.) Pilat
 Trametes versicolor (L.: Fr.) Pilat
 Trametes species
 Trametopsis cervina (Schwein.) Tomsovsky
 Tremella fuciformis Berk.
 Tremella mesenterica Retzius: Fr.
 Trichaptum bifforme (Fr. in Kl.) Ryv.
 Trichaptum sector (Fr.) Kreisel
 Tricholoma caligata (Viv.)Rick.
 Tricholoma sejunctum (Sow.: Fr.)
 Tricholoma subsplendens (Murr.) Ovrebo comb. prov.
 Tricholoma sulphureum (Bull.) P. Kumm.
 Ustulina deusta (Hoff.) Lind (Kretzschmaria)
 Xeromphalina campanella (Batsch: Fr.) Kuhn.& R. Mre.
 Xerula furfuracea (Peck) Redhead, Ginns & Shoemaker
 Xerula RHP species 1
 Xylaria magnoliae J. Rogers
 Xylaria multiplex (Kuntze) Fr. sensu Dennis
 Xylaria poiteani (Lev.) Fr.
 Xylobolus frustulatus (Persoon:Fries) Boidin
 Xylobolus subpileatus (B & C) Boidin
 Zelleromyces cinnabarinus Sing. & A.H. Smith

VISITING MYCOLOGIST IN EAST TEXAS

Russian mycologist Larissa Vasilyeva visited the area in October 2009. Larissa works with the pyrenomycetes, little black fungi on wood. She visited the area in 2007 and published a number of new species from the Big Thicket National Preserve (BTNP) (Mycotaxon 107:307-313). David Lewis and Dale Kruse, both BTNP ATBI Taxonomic WorkIng GroupS (TWIGS) leaders, helped Larissa with the logistics of her field work, visiting most of the units of the BTNP. A visit was also made to Newton County. Her efforts have added greatly to the knowledge of the pyrenomycetes fungi of Texas, which are often overlooked.

#####

BTNP MUSHROOM WALK
NOVEMBER 14, 2009

A nice November day accommodated 61 people to a mushroom walk in the Lance Rosier Unit of the Big

Thicket National Preserve (BTNP). These included 25 persons from the City of Orange Master Naturalist program. We divided into two groups, one to Kinky Branch Creek led by Brooks Young and John Soileau, and the other to the Cypress Swamp on Teel Road, led by President David Lewis, and Jay Justice. After searching for two hours, we returned to the Field Research Station, ate lunch and discussed the morning's finds. A total of 79 species was found. Those of interest include *Lactarius neotabidus*, known from northern sphagnum bogs, *Amanita elliptosperma*, one of the deadly white amanitas, *Gymnopilus fulvosquamulosus*, common on downed wood, *Hygrophorus borealis f. salmoneus*, known from North Carolina, and *Phallus ravenelii*, one of the more spectacular stinkhorns. GSMS members attending were Jay Justice, David Lewis, Dennis and Angie Miller, Pauline Singleton, John Soileau, and Brooks and Bernadine Young. Thanks to Jay Justice, John Soileau, and Brooks and Bernadine Young for help at the event.

Species found include:

Abortiporus biennis (Bull.) Singer
 Amanita bisporigera Atkinson
 Amanita brunnescens Atkinson var. brunnescens
 Amanita ceciliae (Berk. and Broome) Bas
 Amanita citrina var. lavendula Coker
 Amanita elliptosperma Atkinson
 Amanita flavoconia Atkinson
 Amanita polypyramis (Berk. & Curt.) Sacc.
 Amanita vaginata complex (2 taxa)
 Armillaria mellea (Vahl: Fr.) Kummer
 Armillariella tabescens (Scop.: Fr.) Singer
 Bjerkandera adusta (Fr.) Karst.
 Bolbitius reticulatus (Pers.) Ricken
 Cantharellus cibarius Fr.
 Clitocybe gibba (Pers.) P. Kumm.
 Coprinellus disseminatus (Pers.) J.E. Lange
 Cortinarius cf. alboviolaceus
 Cortinarius iodes Berk. & Curt.
 Daedaleopsis confragosa (Bolt.: Fr.) Schroet.
 Entoloma "abundans"
 Ganoderma lucidum Leysser: Fr.
 Geastrum saccatum Fr.
 Gymnopilus fulvosquamulosus Hesler
 Gymnopilus liquiritiae (Pers: Fr.) Karst.
 Gymnopus dryophilus (Bull.) Murr.
 Gymnopus iocephalus (Berk. & Curtis) Halling
 Hygrophorus borealis f. salmoneus Coker
 Hygrophorus miniatus (Fr.) Fr.
 Hymenochaete rubiginosa (Dicks) Lev.
 Hypholoma fasciculare (Fr.) P. Kumm.
 Inonotus quercustris M. Blackwell & Gilb.
 Laccaria amethystina (Bull.: Mer.)Murr.
 Laccaria laccata (Scop.:Fr.) Cke. var. pallidifolia (Pk.) Pk.
 Lactarius neotabidus A.H. Smith
 Lactarius paradoxus Beardslee and Burlingham
 Lactarius proximellus Beardslee & Burlingham

Lactarius pseudodeliciosus Beards. & Burl.
 Lactarius quietus var. incanus Hesler & A.H. Smith
 Lactarius rimosellus Pk.
 Lactarius speciosus (Burlingham) Sacc.
 Lactarius subplinthogalus Coker
 Lactarius species DPL-696
 Lentinus trigrinus (Bull.) Fr.
 Lenzites betulina (L.:Fr.)Fr.
 Lepista nuda (Bull.) Cooke
 Lepista tarda (Pk.) Murr.
 Lycoperdon perlatum Pers.
 Lycoperdon pyriforme Schaeff.: Pers.
 Marasmius fulvoferrugineus Gillman
 Microporellus obovatus (Jungh) Ryv.
 Phaeolus schweinitzii (Fr.) Pat.
 Phallus ravenelii Berk. & Curt.
 Phellinus gilvus (Schw.) Pat.
 Phellinus species
 Pholiota species
 Pleurotus ostreatus (Jacq.: Fr.) Kummer
 Pluteus cervinus (Schaeff.: Fr.) Kummer
 Ramaria apiculata (Fr.) Donk
 Russula silvicola Schaffer
 Russula vinacea Burlingham
 Scleroderma cepa Persoon
 Scleroderma geaster Fr.
 Stereum complicatum (Fr.) Fr.
 Stereum ostrea (Blume & Nees.) Fr.
 Stereum striatum var. striatum (Fr.) Fr.
 Strobilomyces confusus Sing.
 Trametes elegans (Spreng.: Fr.) Fr.
 Trametes menziesii (Berk.) Ryvarden
 Trametes pubescens (Schum.:Fr.) Pilat
 Trametes versicolor (L.: Fr.) Pilat
 Trichaptum abietinus (Fr.) Ryv.
 Trichaptum bifforme (Fr. in Kl.) Ryv.
 Tricholoma species
 Tyromyces chioneus (Fr.) Karst.
 Unknown polypore
 Unknown pyrenomycete
 Unknown resupinate
 Xeromphalina campanella (Batsch: Fr.) Kuhn.& R. Mre.
 Xylobolus frustulatus (Persoon:Fries) Boidin
